

SHR AUTOSENSOR TECH LIMITED

Company Profile | High Voltage Switching Components

SHR AUTOSENSOR TECH LIMITED (SHR MiRelay) develops and supplies high voltage reed relays, mercury wetted relays, high voltage DC contactors, relay modules, and related sensor products for EV, semiconductor ATE, medical, industrial, and instrumentation applications.

Field	Current value
Legal name	SHR AUTOSENSOR TECH LIMITED
Brand	SHR MiRelay
Website	https://www.reed-relay.com
Sales & engineering	sales@reed-relay.com
Phone / WhatsApp	+86 137 6157 1029
Address	Room 311, No. 18 Hangchuan Road, Pudong New District, Shanghai, China

Core Capabilities

- High voltage reed relays for test, measurement, medical, EV and industrial systems.
- Mercury wetted relays for low bounce and stable contact resistance.
- High voltage DC contactors for EV, solar, energy storage and charging infrastructure.
- Custom relay modules and cross-reference support for engineering teams.
- Application support across semiconductor ATE, EV, medical devices and instrumentation.

Product Portfolio

Product family	Local source files
Reed Relays	317
Legacy Relay Materials	111
Reed Switches	45
Mercury Wetted Relays	44
High Voltage DC Contactors	34
Level Sensors	9
Partner Reed Relay Materials	6
HV Semiconductor Switches	4
English Master Catalogs	4
Reed Capsules	3
Mirelay Project List.xlsx	1
